Director's Report

The year 2011-12 has been in many ways a very satisfying year for the Organization. Starting two new centers at Chandrayangutta and Yakutpura for the children with Hearing Impairment has been one of the major achievements this year. It was my dream to start centers here as these areas are grossly neglected in terms of providing services to children with disability. The children who come to the centers belong to very poor families and have had no access to any kind of formal education. It gives me immense pleasure to reach out to these children.

The students of Grade X performed remarkably well in the Board Examination. All the ten students who appeared for the exams passed with Distinction and three of them secured 95%, proving yet again the fact that, all that the children with disability require is an enabling environment for them to do well. The passed out students have chosen 10+2, Diploma in engineering courses.

Besides academics, the students have been taking great interest in other extracurricular activities like Dance, Karate, Drawing, Painting, Art and Craft. Students have won appreciation for their performance of Dance and Karate at various forums. Our own creative artists have been bagging prizes at many drawing and painting competitions.

Ashray Akruti has a new science laboratory and library set up with corporate support. The organization is in the process of developing Interactive Learning Tools which will help Hearing Impaired Children understand the concepts better.

One batch of students has completed their course in Multimedia and Computer Animation. Most of them are now adept at courses like Adobe Photoshop, 2D Animation, 3D Animation, Compositing, and Video Editing.

Our Volunteers have been a great source of strength for us. The Volunteers from Wipro, HSBC, Microsoft and Deloitte have been involved in various activities of the Organization. It was encouraging to see many school students of Hyderabad come forward to support the cause. I am really humbled by their efforts.

Let my team including me conclude by thanking each and everyone who has motivated and supported us to make a difference in the lives of the Hearing Impaired Children.

HELP BREAK THE WALLS OF SILENCE.

Highlights During the Year

New Initiatives: Semi Residential Centers at Chandrayangutta and Yakutpura in the Old City area of Hyderabad

In January 2012, two more centers, one at Chandrayangutta and other at Yakutpura in the old city area of Hyderabad, were started. There are no NGOs or government agencies providing any educational facilities for Children with Disability in these areas. In a very short period, we are already catering to the educational needs of close to 100 students and there is visible improvement in them. Most of the children belong to very poor families. The organization provides breakfast, lunch and snacks to the children.

Science Lab and Library

Ashray Akruti has a science laboratory and a library set up with corporate support. The organization is in the process of developing Interactive Learning Tools which will help Hearing Impaired Children understand the concepts of various subjects better.

School Results at the SSC Board Examination (Grade 10)

The Students of Ashray Akruti came out with flying colors at the State Board Examination (Xth Std). All the ten students were placed in distinction, three students securing 95%. It was a moment of great achievement for the students as well as for the Organization.

Special Education

Ashray Akruti catered to 168 students during the academic year 2011-12. Utmost care has been taken by our Special Educators to see that there is good improvement in the students in classes in terms of academics, speech, and communication.

We steadfastly maintain low teacher student ratio so that the educator is able to give individual attention to each child. All the children are helped with Speech Therapy and Auditory Training. Special attention is accorded to students with behavioral problems and to slow learners so that they are able to cope up with the regular lessons in class.

The children are monitored and evaluated on a regular basis very carefully. We ensure that children progress at their pace, to the best of their ability.

Extra-Curricular Activities

Students are encouraged to participate in all kinds of extra-curricular activities like Drawing, Painting, Dance, Karate, Swimming, Photography, Art and Craft. We believe that such activities help the children to develop a well-rounded personality.

The performance of our students especially in Karate and Dance at various forums has been well appreciated. Drawings and Paintings of our own young artists have been applauded at many platforms.

Residential Facility

71 Students availed Residential Facility in the year 2011-12. The house mothers and care takers ensure that the children are well taken care of. The children are provided nutritious and well balanced meals. A dedicated school bus is available to transport children to and from the school.

Awards

Donors Speak

Dr. Bhavani, Volunteer and Donor: “ I have been volunteering for Ashray Akruti for the past seven years. I have seen many of these children grow in front of me. The teachers and wardens are taking complete care of the health and nutrition of the children. Medical instructions are followed up properly. I have not come across any negligence or emergencies. Every child at Ashray Akruti is a healthy and happy child”

Ravi Chennadi: “I have been associated with Ashray Akruti since Oct, 2008 funding education/hostel for nearly 20 students. I and my group have considered a lot of charitable organizations before we narrowed down to 4 organizations & Ashray Akruti is one of them. It has been a long & successful partnership. We receive the progress reports (of all the students we fund) & information regarding the performance of the kids on a regular basis. There has always an element of trust between both the parties which had made this partnership possible.

Looking forward for a long term association with your group & let's try and make a difference to many more needy lives!!”

Volunteer Speaks

Sufal Roongta, Student IIM Ahmedabad: “It has been over a year since I started to volunteer with the organization. It has been a tremendous experience with the NGO in the past one year. The simplicity and transparency in the organization still continues to amaze me.

The complete administration, including the director has always been approachable and open to any new ideas. I have always felt at ease while working with the organization. It is inspiring to see them work so hard day after day for the good of the society.

Last, but not the least, the kids of AA are extremely adorable and lively. When I look at their smiling faces, every effort seems to be worth it”.

Parent Speaks

Uma “ I was greatly worried when I learnt that my child Ashrita is Hearing Impaired .Initially I had no idea as to where to seek any kind of help. I enrolled her in a regular school near my home but there was no progress in her. It was in 2010 that I came to know about Ashray Akruti and decided to enroll her here. I am now seeing visible improvement in her speech and communication. She is progressing in academics as well”.

Success Stories at Ashray Akruti

B. Anish was integrated into a regular mainstream school within a span of three years after joining Ashray Akruti. His father Mr. Bandodaya is working with a private company, while his mother Ms. Padma is a homemaker. The parents were in a state of shock when they realized that their son is deaf. They had no idea as to how to handle a child with disability. It was through references that they learnt about Ashray Akruti and the support and guidance the organization can provide to their son. He joined the pre-primary class of Ashray Akruti in June 2009. His mother regularly attended classes with him and practiced the teaching methods at home. The auditory training and speech therapy methods helped Anish tremendously with speech and communication. His progress in academics was also very good.

Sachit was a special child for his parents. The parents were aware of the fact that their child is going to arrive on this earth with some disability. In spite of that they welcomed him. But, as he grew the parents realized there were hardly any institutions which could provide any kind of support to their child. It was through references that they learnt about Ashray Akruti and decided to enroll him here.

Apart from hearing impairment, Sachit also suffers from mild mental retardation. Initially when he was enrolled, Sachit could not focus or even sit for a short period in the classroom. He also threw a lot of tantrums. In fact, sometimes two to three staffs were needed to control him. The educators at Ashray Akruti took it as a challenge to work with Sachit and help him focus in the classroom.

A special class with three children was arranged for Sachit so that he is given individual attention. The Educator was given a free hand to deal with Sachit. Individual attention and behavior modification methods have worked wonders on the child. With lots of motivation and encouragement, Sachit has now improved vastly. He has started paying attention in the class. Speech and Auditory training are helping him improve his speech and communication. He has started progressing in academics and his parents are delighted to witness this change in him.
