Director's Report:

I take immeasurable pleasure in informing you that the year 2012-2013 was a very fruitful year, with activities consistent in nature, yielding good impact. I am delighted to share that our students have passed SSC examinations with flying colors. The placement of all the students trained in Multimedia and Computer Animation at our vocational training center has strengthened my confidence that our students can excel in this field. My sincere gratitude to the corporates for providing employment opportunities to the hearing impaired students trained at Ashray Akruti.

The support of our valuable donors has boosted our impetus to work hard for the betterment and happiness quotient for our children. My mission all along has been to provide a happy and healthy childhood to the children which in turn will enhance their self-respect and inculcate positive attitude among them. At Ashray Akruti we endeavor to provide both care and quality in our services and this is evident in each and every sphere of our activity. Ashray Akruti in the past year was able to provide table tennis, computers, dining hall, entertainment space, study rooms, safe transportation, to our students staying in the residential home.

In this fast paced world, the use of technology has not been left behind. From the special educators to the administrative staff, the use of technology has empowered the organization and its staff. This has indeed helped the organization immensely in project planning, maintaining donor relationships, monitoring and evaluation.

While I am happy about providing quality services to the children who are with us my thoughts wander over to the large number of hearing impaired children who mostly do not have anyone to take care of their educational and rehabilitation needs. As per WHO estimates there are 360 million persons in the world with disabling hearing loss. Of these 32 million are children and most of these children are from South Asia, Asia Pacific and Sub Saharan Africa and most of them do not have access to quality health and educational facilities. Providing facilities to children with hearing impairment has to be taken up on a war footing.

Also it is essential for the education to be linked with decent livelihood. It is time for the social entrepreneurs to come up with ideas and solutions that would give people with disability decent job opportunities keeping their talents and interests in mind.

Director's Report:

Working with children having hearing impairment and providing quality services for the past 17 years has been both cherishing and challenging. The past experiences of sustaining the activities have led us to believe that building a corpus for the organization is essential and we are striving hard towards this goal.

I am quite hopeful that in near future we will be able to take up community based rehabilitation, and mobile hearing screening camps that will help us identify and provide solutions to the children with hearing loss at an early age. We also look forward to provide diagnostic facilities and reach out to more number of children in urban slums and rural areas. I am also hopeful to come up with vocational courses that have market demand and also would interest the hearing impaired youth.

I extend my heart-felt gratitude to all the volunteers, institutions and individuals for pledging their valuable time to the organization. I appreciate the CSR initiatives of the corporates in Hyderabad in terms of supporting the organization by investing their time and resources that have helped us sustain our activities. I also take this opportunity to thank the various school children of Hyderabad who came forward to support their not so fortunate counterparts.

My sincere gratitude to the government officials for extending a helping hand to Ashray Akruti. Here I would like to mention the officials of Rajiv Vidya Mission for their support to continue our activities at the Chandrayangutta and Yakutpura centers in the old city area of Hyderabad. I also thank all the NGOs associated with Ashray Akruti for providing us with an opportunity for peer to peer knowledge exchange and skill sharing.

The people associated with us have been really kind and considerate. I take this opportunity to thank all our stake-holders who have rendered their inestimable support to align with our mission and vision.

D.P.K BABU
Director

Meritorious Performance by Ashray Akruti Students at the Public Examination

It was a day of great achievement for the students and teachers of Ashray Akruti when all 11 students who appeared for the SSC Board Examination (Tenth Standard) passed out with flying colours. Six of the students secured Grade Point Average (GPA) of 9 points, three students secured 8.8 points and two students secured 8.5 points.

Students of SSC 2012-13 batch with the head mistress Ms.Shashikala and their teachers

Sai Vani, a Hearing Impaired student of Ashray Akruti was honoured with the Pratibha Award for her meritorious performance in the SSC Examination held in April 2013. She was chosen for this award in the physically challenged category. She received the award from Mr. S. A. Rizvi, the District Collector of Hyderabad.

Our dreams came true- All our Students trained in Multimedia and Computer Animation placed successfully

When we started training in Multimedia and Computer Animation to the hearing impaired youth, our ambition was to prepare them for a vocation suited to modern day job market capitalizing on their innate strength of being very creative persons. Our dreams, of providing a decent employment opportunity, became a reality when we placed all the 15 of our students with top companies like Dreams Entertainment, Films Restoration International Company Private Ltd., Prasad's Lab and etc. This was the result of sheer hard work of the students and trainers.

The parents' joy knew no bounds. Madhavi's father, who happens to be a band member performing at the weddings, expressed his gratitude and happiness to see his daughter working for Dreams Entertainment Private Limited and earning a decent salary. Similar is the case with other parents as well.

Most of the students who hail from poor backgrounds initially had no knowledge of computers or English before joining Ashray Akruti. During their tenure of two years at Ashray Akruti, the students were trained in Photoshop, CorelDraw, Illustrator, 2D (graphic design, animation), 3D (modeling, texturing, rigging, animation), and web designing. Post the course, they also worked for projects earning a stipend before the placements.

Students of the Multimedia Course with the Director

Ashray Akruti empanelled with the National CSR hub at Tata Institute of Social Sciences, Mumbai

Ashray Akruti is now empanelled with the National CSR hub at Tata Institute of Social Sciences, Mumbai. This was done after an exhaustive, detailed and multi-layered scrutiny of the organization by the empanelment committee.

Special Training Centers at Chandrayangutta and Yakutpura in the Old City area of Hyderabad

It was the outcome of great efforts put in by the team of Ashray Akruti that enrollments rose from a mere handful of children in the beginning of 2012 to 120 as on today at Yakutpura and Chandrayangutta Centres. Regular home visits, door to door surveys, visits to schools and hospitals, medical camps at regular intervals made this achievement possible for us. Both the centers are semi residential centers where the children are served breakfast, lunch and snacks. The students now attend school regularly and are showing remarkable improvement in their learning curve.

Ashray Akruti was the first NGO to set up special training centers in providing specialized services to the children with hearing impairment in this area. All the children hail from very poor families and have had no access to educational facilities in the area before.

The students are responding well to auditory training, speech therapy, language development and academic training that is being imparted at the centers.

Besides academics, the students also have exposure to other extracurricular activities. Republic day, Independence Day and other celebrations were celebrated with much enthusiasm wherein most of the students participated. The students also got an opportunity to participate in the sports meet organized by Catholic Health Association of India. They won much appreciation for the march past and also bagged several medals at the event.

The students also love their art and craft classes with some demonstrating excellent skills. Regular parent teacher meetings are held wherein the parents are counselled and guided regarding various issues. Most of the parents have seen the difference in their children and are now more than delighted to send them to school.

Speech therapy

Class in Progress

Marching ahead- Sri Nagar Colony Branch

At the Srinagar colony branch students continue to progress in their academics as well as extracurricular activities. 157 students were on the rolls of the school in the academic year 2012-13. The students are progressing well in academics as well as in the speech and communication.

Technology is being used in the classrooms increasingly. The teachers have been empowered in the use of Computers and Internet. The students are now taught with the help of computers, laptops and projectors in the classrooms.

The Science Laboratory and the Library which was set up two years back has proved really helpful to the students. The students now are able to conduct various experiments in the lab which has really made a huge difference in their understanding of the subject matter. Students love their reading hour in the library and are making most of the library.

Students are also encouraged to actively participate in extracurricular activities like Karate, Yoga, Drawing, Painting, Art and Craft.

Residential Facility

69 Students (42 Boys and 17 Girls) availed the residential facility of Ashray Akruti located at Begumpet. The children are well taken care of by a dedicated team of wardens, cooks and ayahs. The children are served healthy and nutritious food and a transport facility that shuttles the children from school to their Home with utmost safety.

Last year the hostel was equipped with table tennis, ball pool, computers additional space for study and entertainment.

Celebrations at Ashray Akruti

Independence Day saw the children participating in the Bandhan program, a program organized by Indian School of Business to connect with NGOs. The students also participated in the Freedom Ride organized by Atlanta Foundation. The students of the Multimedia and Animation Center participated in the Independence Day celebrations at CII and rendered the National Anthem in sign language much to the delight of the audience.

Sports day was organized on 14th September for the school students at GHMC Grounds, Masab Tank. Different competitions were held and prizes given away at the event.

World Disability Day was celebrated on 4th December at IAS Officers Association to spread awareness about the various disabilities and bring home the message of equality between children with and without disability. Painting, greeting card, quiz competition and clay ear mold making workshops were conducted for the children. Master Manoj and Master Sharon of Ashray Akruti played drums and showcased their talent. Students from Jain Heritage a Cambridge School and Ashray Akruti presented a group dance together. Students of Gowtham Model School & Ashray Akruti enthralled the audience by rendering the national anthem in sign language. The chief guest for the event was Sri. M. Samuel, IAS, Commissioner of Land Administration.

Republic day was celebrated with great fervor at Ashray Akruti premises. The national flag was hoisted followed by cultural programs in which most of the students participated. Mr. Shashi Reddy, Vice President at Qualcomm was the chief guest on the occasion. Mr. Krishnan Vijayaraghavan of Qualcomm and Dr. Dashrathram Reddy, Orthopedic Surgeon at Yashoda Hospital also graced the occasion.

Success Stories

Our Swimming Champion

Master Gautham Surya, a student of Ashray Akruti School won 1 Silver Medal and 3 Bronze Medals at the National Games for Deaf (Swimming) organized by All India Sports Council of the Deaf held at Aurangabad, Maharashtra from 1st April to 5th April 2013. Gautham a student of grade 8 hails from a poor family. His father works as mechanic and mother is a homemaker. With Gautham's hearing impairment problem, his parents were initially devastated but then decided to take on the challenge

and provide him with the best they can.

It was at the young age of 4 that Gautham's talent for swimming was spotted when his neighbor who happened to be swimming instructor offered to coach him. Gautham enjoyed swimming and emerged as a champion.

He started going to regular school in the neighborhood. When Gautham was six, the family decided to move to Hyderabad in search of better livelihood and better facilities for

Gautham Surya

Gautham. Gautham's father took up a job as a car mechanic in a workshop and Gautham started going to a special school. The parents then found a coach who would train him free and this took several months. He started his lessons in swimming again at the age of 8 and since then there has been no looking back. He has participated in several competitions and won many medals.

Though doing well in swimming, the parents realized that Gautham was not making much progress academically. They learnt about Ashray Akruti through their references and brought Gautham here. He joined the school in 2010. The teaching methodology is now really helping him to progress in academics. The school supported Gautham in his swimming endeavor to an extent that he was encouraged and supported to compete at the national level. Kudos to Gautham and his family for their determination and grit to succeed against all odds.

Sharan is ready for Mainstream School

Sharan was born deaf into a poor family. Younger of two siblings at the age of 3, an age when children usually start talking, he did not even react to sounds, and was diagnosed as a deaf child. Then began a tedious and expensive process of going to doctors and visiting clinics, to find a solution for their child's problem. His father was a daily wage laborer and had to take loans to visit doctors. Life was tough for the family.

Sharan was enrolled in a government school in the neighborhood but did not make much progress. It was then the parents came to know about Ashray Akruti and enrolled him here. Sharan was 6 years old then. At Ashray Akruti, the special training and learning process resulted in marked improvement in Sharan. He was a keen learner and learnt to understand lip read and speak. He was progressing well in academics as well. His teachers suggested to his parents that he be enrolled in a regular school since he had the capability to cope up with regular curriculum in a mainstream school.

Sharan is now a student of Blue Bell School, Sri Nagar Colony studying in Grade 5. This is a matter of pride for not only for his parents but also for his teachers that Sharan attends a regular school studying along with other non-disabled children. He is regular to school and has already made many friends. He is treated like any other student there and is doing well with little extra support from his teachers and friends.

Ashray Akruti wishes him all the best for his new innings in the new school.

Sharan in Mainstream School

Donor Speaks

Renuka Butta Director – Butta group

“I find great satisfaction being associated to Ashray Akruti schools. The school's mission is very clear - providing hearing impaired students' special education and a bright future.

I have been associated with Ashray Akruti for some time now. Though my contribution is little compared to the amount of work being done by them, I am quite happy with their zeal and hard work. It's a challenge to run such an organization and I appreciate every staff of Ashray Akruti for devoting their time for a greater good.

Ashray Akruti is doing a noble work by helping these kids achieve their dreams. All the best and keep up the good work.”

Volunteers Speak **Sreenibas Patnaik**

“It is an extremely unique and wonderful experience to work with Ashray Akruti. Sharing the experience with amazing people and helping the staff with my professional experience made me love my job even more. The compassion and the integrity with which the team is dedicated to the cause is overwhelming.”

Narendra Agarwal, Lead Engineer Borqs

“I have been volunteering for Ashray Akruti for the past five years. My association with the organization started when I started for volunteering activities for the Kite Festival event in the year 2008. My experience with the organization has been very enriching and wonderful. I find the entire team dedicated to the cause of the hearing impaired and I would like to associate with the organization in whatever capacity I can in the years to come.”

Volunteer-Narendra

Parent Speaks **Zareena Begum**

Zareena Begum
with her son Sabeel

“My son Sabeel is studying in Grade 6 at Ashray Akruti. My family belongs to Kalavurthy Mandal in Mehboob Nagar district. Sabeel was eight months old when I realized that he was deaf and this left my family, especially me, totally shattered. With a meager income and hardly any facilities in the village for a child with disability I felt totally helpless. My husband and I then decided to move to Hyderabad for better livelihood opportunities and better facilities for my son.

I came to Hyderabad and visited to many clinics and doctors to find a solution to my child's condition. Soon I realized that I have to live with his condition.

Sabeel was enrolled in a special school here in Hyderabad but even after spending two years in the school there was no progress in him. It was then that I came to know about Ashray Akruti and decided to enroll him here. He joined the school in the year 2006. There has been vast improvement since he joined the school. He is now able to communicate in sentences and is doing well in academics. I am happy with his progress and hope that my child will grow up to be a well-educated person and will be able to stand on his own feet.”
